Dolphin

OUR UNIVERSE

"When it comes to chocolate, Belgium can boast several gold nuggets. Dolphin is one of them. In its workshop in Walloon Brabant, the great Master Chocolatier combines flavours with quality, originality and a commitment to the planet."

At Dolphin, chocolate is a passion

Since 1989, Dolphin's philosophy has been to mix high-quality natural ingredients directly into the chocolate mass. Fruits, spices, flowers and great confectionery classics are subtly and harmoniously incorporated into the best traditional chocolate.

Our Master Chocolatiers are keen travellers, and search for the finest ingredients, which they select from the best that Nature has to offer. They create surprising combinations that result in exquisite, rounded flavours, free from added sugars and fats.

**Our chocolates are produced in Belgium,
in our workshop located in Baulers (Nivelles).**

Your satisfaction is our daily goal!

At Dolphin, we are committed to providing you with impeccably fresh chocolates. Our team is attentive to your needs and makes it a point of honour to serve you quickly and personally. You inspire us; suggestions and proposals are always welcome...

Dolphin

COCOA ACT 4

Our new sustainability program

Everyone has a role to play for the future of the planet, and Dolphin has decided to take a leading role by investing in a new ethical sustainability program: **Cocoa Act 4**.

WHY THE 'COCOA ACT 4' PROGRAM?

Because there are **four pillars** to this program that Dolphin wants to be both **clear and effective**.

1. HUMAN BEING

First, the human being is at the center of the brand's concerns, which is committed to improving the standard of living of cocoa bean producers, thanks to a **"quality" bonus** but also a **"chocolate" bonus** that will allow projects to be carried out within the Parc Community, located in Ivory Coast (access to water, school, dispensary, maternity, ...).

2. PRESERVATION OF THE PLANET

Dolfin also wants chocolate to rhyme with the preservation of the planet by practicing a **reasoned agriculture**, by ensuring the **training of cocoa producers**, by putting a **stop to deforestation**, by betting on **reforestation**, and by **reducing by 80% the use of plastic** in its packaging.

That's why you'll now find our chocolate bars in attractive cardboard sleeves. In addition, the transparent boxes that contain our chocolates are now made of recycled PET and 100% recyclable!

3. PRODUCT QUALITY

The third impacting element, and not the least, is the quality of the product.

At Dolfin, only the **highest quality ingredients of natural origin** are used. The fresh cocoa beans are rigorously selected and then fermented and dried in a Dolfin center in the Ivory Coast, for a chocolate with an exceptional taste.

4. TRANSPARENCY

Finally, Dolfin wants to act in full transparency. **Traceability from the bean to the bar has become essential. The brand's commitments are clear, concrete and measurable.** They will be the subject of an annual report that can be consulted at any time on the brand's website and thanks to a QR code present on the products.

3

Dark chocolate 73% cocoa from Papua New Guinea

Cultivated along the steep mountains of the mighty Sepik river, this chocolate reveals its potency in the very first bite. Thanks to an exceptional fermentation and drying process without smoking, the natural flavour of the cocoa beans is preserved, giving the chocolate an authentic, unique flavour. Blending the roasted flavours of coffee and hazelnut with fresh and dried fruit, hints of black pepper and honey, this exceptional chocolate presents an astounding complexity of flavours.

The flavour profile is then enhanced further with fresh herbaceous and floral notes, as well as a subtle hint of pepper.

5

Dark chocolate 66% cocoa from Cameroon

Presenting a wide variety of landscapes, from breathtaking coastlines to imposing mountains, barren deserts to lush tropical forests and the expansive savannah, Cameroon is sometimes referred to “Africa in miniature”.

This dark chocolate was created close to the mighty Sanaga river, that creates a nourishing and fertile basin, offering the ideal conditions for cocoa cultivation and giving it intense and vibrant notes.
