# OUR UNIVERSE

**"When it comes to chocolate, Belgium can boast several gold nuggets.
Dolfin is one of them. In its workshop in Walloon Brabant, the great Master Chocolatier combines flavours with quality, originality and a commitment to the planet."**

## *At Dolfin, chocolate is a passion*

Since 1989, Dolfin's philosophy has been to mix high-quality natural ingredients directly into the chocolate mass. Fruits, spices, flowers and great confectionery classics are subtly and harmoniously incorporated into the best traditional chocolate.

Our Master Chocolatiers are keen travellers, and search for the finest ingredients, which they select from the best that Nature has to offer. They create surprising combinations that result in exquisite, rounded flavours, free from added sugars and fats.

**Our chocolates are produced in Belgium,
in our workshop located in Baulers (Nivelles).**

## *Your satisfaction is our daily goal!*

At Dolfin, we are committed to providing you with impeccably fresh chocolates. Our team is attentive to your needs and makes it a point of honour to serve you quickly and personally. You inspire us; suggestions and proposals are always welcome...

# COCOA ACT 4

## *Our new sustainability program*

Everyone has a role to play for the future of the planet, and Dolfin has decided to take a leading role by investing in a new ethical sustainability program: **Cocoa Act 4.**

### WHY THE 'COCOA ACT 4' PROGRAM?

Because there are **four pillars** to this program that Dolfin wants to be both **clear and effective.**

### 1. HUMAN BEING

First, the human being is at the center of the brand's concerns, which is committed to improving the standard of living of cocoa bean producers, thanks to a **"quality" bonus** but also a **"chocolate" bonus** that will allow projects to be carried out within the Parc Community, located in Ivory Coast (access to water, school, dispensary, maternity, ...).

MADE IN BELGIUM | DOLFIN SA | 172 AVENUE ROBERT SCHUMAN, 1401 BAULERS | +32 2 366 24 24 | WWW.DOLFIN.BE | INFO@DOLFIN.BE

## 2. PRESERVATION OF THE PLANET

Dolfin also wants chocolate to rhyme with the preservation of the planet by practicing a **reasoned agriculture**, by ensuring the **training of cocoa producers**, by putting a **stop to deforestation**, by betting on **reforestation**, and by **reducing by 80% the use of plastic** in its packaging.

That's why you'll now find our chocolate bars in attractive cardboard sleeves. In addition, the transparent boxes that contain our chocolates are now made of recycled PET and 100% recyclable!

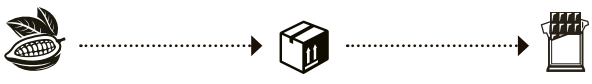

## 3. PRODUCT QUALITY

The third impacting element, and not the least, is the quality of the product.

At Dolfin, only the **highest quality ingredients of natural origin** are used. The fresh cocoa beans are rigorously selected and then fermented and dried in a Dolfin center in the Ivory Coast, for a chocolate with an exceptional taste.

## 4. TRANSPARENCY

Finally, Dolfin wants to act in full transparency. **Traceability from the bean to the bar has become essential. The brand's commitments are clear, concrete and measurable.** They will be the subject of an annual report that can be consulted at any time on the brand's website and thanks to a QR code present on the products.

## ‘ONCE UPON A BEAN’ GIFTSET

Once upon a time, hanging from the branches of a dreamy cocoa tree, grew a cluster of colorful cocoa pods. Each one sheltered cocoa beans with personalities of their own: mischievous, diligent, adventurous... yet all shared the same extraordinary destiny.

One day, one of them was picked and set off on a wonderful journey. Just awakened from its pod, it joined a cheerful group of beans on their way to a great transformation. Fermentation, drying, roasting... each step became an adventure, each encounter a new chapter in the story.

Guided by Dolfin’s expertise, the little beans gradually transformed: first into fragrant nibs, then into a smooth chocolate mass, until they finally became delicious chocolate squares ready to be savored.

*Follow the little cocoa bean on its adventure all the way to the most magical moment of all: when, transformed into a chocolate square, it is finally ready to be enjoyed.*

*A chocolate tale to savour... one square at a time.*

24

**To tell this odyssey, Dolfin teamed up with Elium,** a Franco-Belgian artist and designer, who brought each stage of the journey to life with character and movement. Thus was born “Once Upon a Bean”: a limited-edition gift box of 32 chocolate squares, designed as a comic strip where cocoa pods, beans and chocolate bars come alive before your eyes.
